## A personal message from BARNES

### My motivation for being a Cryos International donor

Hi

I have chosen to be a donor because I think it's very important to help other people who are experiencing some difficulties on the reproduction area, and I know that I would be very sad if I was in that situation and was unable to get help. I'm very glad to be able to help you with this project, and to fulfill your dream of having children.

If I should tell a bit about myself, I'm a nice and calm guy, who wants the best for all people, and has the ability to always see the best in people.

I hope that you will have a happy and wonderful future with your child, and have many great experiences together.

Best regards, your donor.
